

1. Strategies to increase the number of applicants for direct entry to PhD Program:

---Open house events in the fall to engage undergrad applicants (e.g. GASP, 4 PH presentations) and in the spring to secure commitments of admitted students to Physiology (e.g. FIPS as a venue);

--- Target and inform 2nd/3rd yr undergrads, particularly Physiology Specialist Program (via Michelle French);

---Pro-active recruitment of domestic and international students with coherent branding and materials from three levels; International agreements;

---Coupling department and lab admission?

---Funding incentives to support Pis?

2. FOM: Total number of MSc students are under the projected number:

International: +67 (+37 PhD, +24 MSc)

Domestic: -57 (-15 PhD, -42 MSc)

3. Supervisor Evaluation Form:

Pilot questions from 41 students (13 MSc, 28 PhD)

4. SGS embedded Mental Health & Wellness Services
