

## TIPS ON IDENTIFYING YOUR FUND SOURCE ON GRADSYS

- University of Toronto paid awards (ROSI paid funds) will **automatically** appear on the Agreement Form. Examples of ROSI paid funds are: University Toronto Fellowships, OGS, , NSERC and most OSOTF awards.
- ROSI paid funding data is refreshed daily and information may be changed. For inquiries, check with the Graduate Office.
- **Enter all other award funding paid off-campus, such as through hospitals and research institutes.**
- **Enter all other funding support from your Supervisor's Stipend, paid at the University of Toronto and/or off-campus.**
- If you are not sure the exact fund name, please contact the Physiology Graduate Office or select what you THINK is the right fund source and ADD 'graduate unit to verify fund source" in the **comments section** with the full name of the fund and indicate whether the fund is an award/fellowship/studentship or a supervisor's operating grant.

Below is a list of common fund sources:
