---

**CONFIDENTIALITY**

All documents and information provided for the purpose of reading / evaluation of the CIHR Research Grant Proposals submitted by Ph.D. students as part of the requirements of their program are subject to the conditions of the University of Toronto, Policy on Access to Student Academic Records. Therefore, they and any discussion thereof, must be treated as strictly confidential and may not be used for any purpose beyond that for which they were originally intended. All materials related to the evaluation process must be stored in a secure manner to prevent unauthorized access. When documentation is no longer required, it must be destroyed using a secure method such as burning or shredding or return to the Department of Physiology Graduate Office, Medical Sciences Building, Room 3209 for destruction. All inquiries received by readers concerning the evaluation or content of any Research Grant Proposal should be referred to the Graduate Coordinator, Department of Physiology.
