

DEPARTMENT OF PHYSIOLOGY
NSERC Undergraduate Student Research Award (USRA)

2025 APPLICATION GUIDELINES

The Department of Physiology invites summer studentship applications for the Undergraduate Student Research Award (USRA). The USRA provides research experience that complements the degree program which will encourage students to consider graduate studies and pursue careers in the natural sciences and engineering.

NSERC no longer provides an unlimited number of USRAs for students who self-identify as Black. Instead, they have placed a limit on the number that each institution can award beyond the institutional allocation. UofT can award **24** Black Student USRAs above and beyond its total institutional allocation.

Duration:

- Students are expected to engage in full-time research for 16 full consecutive weeks between May 1st and September 1st, as agreed upon with the supervisor. The full stipend is a minimum of **\$7,500** (\$6000 from NSERC + a minimum of \$1,500 paid by the sponsoring professor).

Eligibility:

- Canadian citizen or permanent resident of Canada.
- Registered either full-time or part-time (at the time of application) in a bachelor's degree program in at least one of the two terms immediately before holding the award. NSERC, however, expects that most awards will be held by full-time students. A student is still eligible if they already hold a bachelor's degree, as long as they are currently studying towards a second bachelor's degree in the natural sciences or engineering.
- Must have obtained, over the previous years of study, a cumulative average of at least second class (a grade of B or B-).
- Must have completed, at the time of application, a minimum of two academic terms/semesters. Note that current first-year students are therefore not eligible.
- Graduating students may hold the award in the term immediately following the completion of their undergraduate program requirements, as long as they have not started a program of graduate studies.
- A student may hold only one USRA per fiscal year and may hold a maximum of three USRAs throughout their university career.
- Be engaged on a full-time basis in research and development activities in the natural sciences or engineering during the award tenure.
- Are supervised by a faculty member who meets [NSERC's Eligibility Criteria for Faculty](#) and is able to independently supervise students as per their appointment with their university.
-

Interested students should:

1. Seek a position with a faculty member of the Department of Physiology who is willing to supervise you and to complete the sponsorship agreement providing a minimum of \$1,500 for the duration of the studentship program (i.e., minimum 16 consecutive weeks).
2. Submit a complete application by **February 28, 2025**, including the application form, resume or curriculum vitae (CV), list of 2-3 references, official academic transcript(s), and the sponsorship agreement form. Only complete applications received by the deadline date from students meeting the eligibility criteria will be reviewed.
3. After the top-ranked applicant has been selected and notified, the student and supervisor will need to complete the [NSERC online application](#) and successful supervisors must complete an [MRA](#) by **April 15, 2025**.

Dear Awards Committee:

**RE: NSERC Undergraduate Student Research Award (USRA) Summer 2025
Supervisor Agreement Letter**

I agree to sponsor _____ for an Undergraduate Student Research Award in my laboratory during the summer of 2025. I confirm that I meet [NSERC's Eligibility Criteria for Faculty](#) and am able to independently supervise students as per my appointment with the university.

I agree to assign a suitable research project, to supervise this student throughout the summer program, and to ensure that the student has the appropriate safety / ethics training. I understand that the student is expected to work for an agreed upon duration of at least 16 consecutive weeks during the summer.

I also agree to provide a stipend of at least \$1,500 for this student, if the student has been granted an Undergraduate Student Research Award (USRA). The NSERC funds administered by the Research Services Office will be used to provide the student with an additional \$6,000 for a total stipend of \$7,500.

Sincerely,

Signature of Supervisor
