DEPARTMENT OF PHYSIOLOGY 2025 Undergraduate Award Student Eligibility

Undergraduate Research Opportunity Award (UROP)

Eligibility:

- Students must have a minimum B+ average in the two terms of undergraduate studies immediately preceding award acceptance and must complete a full-time study term directly prior to the award period.
- Students who have completed their undergraduate program are not eligible to apply unless they have been accepted into or are currently enrolled in an undergraduate professional program (medical undergraduate).
- Students who have completed an undergraduate degree and have been accepted into a graduate program but have not yet begun are eligible to apply.
- University of Toronto and non-University of Toronto students may be considered, including international students (with valid student visa for the full summer work term).
- Students must be supervised by a faculty member of the Department of Physiology.
- Failure to comply with this rule may result in the application being denied.
- Students cannot accept multiple summer research awards at the same time.
- Be engaged on a <u>full-time</u> basis in research activities under the direction of an eligible supervisor.
- Preference will be given to students who have an interest in a research career in physiology and who have taken at least an introductory course in physiology.
- Research must be in health research in any area, cardiovascular/heart, cancer and cancer related diseases, kidney and kidney related diseases or respiratory diseases.

Research and Health Sciences Education (RHSE) Undergraduate Summer Research Studentship (USRS)

Eligibility:

- Students must have a minimum B+ average in the two terms of undergraduate studies immediately preceding award acceptance and must complete a full-time study term directly prior to the award period.
- Students who have completed an undergraduate degree and have been accepted into a graduate program but have not yet begun are eligible to apply.
- A student must have a genuine interest in pursuing graduate studies in the life/health sciences.
- University of Toronto and non-University of Toronto students may be considered, including international students (with valid student visa for the full summer work term).
- Students must be supervised by a faculty member of the Department of Physiology.
- Students may only submit one application to this program <u>and</u> each professor may only sponsor one student. <u>Failure</u> to comply with this rule may result in the application being denied.
- Students cannot accept multiple summer research awards at the same time.
- Be engaged on a <u>full-time</u> basis in research activities under the direction of an eligible supervisor.
- Preference will be given to students who have an interest in future graduate training, a research career in physiology and who have taken at least an introductory course in physiology.
- No restrictions on research topics.

University of Toronto Excellence Awards (UTEA)

Eligibility:

- Be a Canadian citizen, permanent resident of Canada, a foreign student (with valid student visa for the full summer work term).
- Be registered in a Bachelor's degree program at the University of Toronto either as 1) a full-time student, or 2) a part-time student only if the UTEA will be held during the student's final session and the student requires only a part-time courseload to complete their degree.
- Be registered either at the time of application or in the term immediately before the award start date; graduating students may hold an award in the term immediately following completion of their undergraduate degree, if they have not started a graduate program; and
- Have obtained a cumulative average of "B+". For students in higher years, this average can be applied to the best two years of study.
- Students are <u>ineligible</u> if they are enrolled in an undergraduate professional degree program in the health sciences (e.g., M.D., D.D.S., B.Sc.N.); hold a degree above a Bachelor's in NSE, HLS or are currently enrolled in graduate studies.
- Must be supervised by a faculty member of the Department of Physiology who is campus-based (i.e. have their primary budgetary appointment in the Temerty Faculty of Medicine) and either holds an active NSERC or CIHR grant or have a pending application with one of those agencies at the start date of the UTEA (May 1, 2025).
- Students may only submit one application to this program per year <u>and</u> each professor may only sponsor two students. Failure to comply with this rule may result in the application being denied.
- Students cannot accept multiple summer research awards at the same time.
- Be engaged on a <u>full-time</u> basis in research activities under the direction of an eligible supervisor.
- Preference will be given to 2nd or 3rd year students who have an interest in future graduate training, a research career in physiology and who have taken at least an introductory course in physiology.
- No restrictions on research topics.

Natural Sciences and Engineering Research Council (NSERC)

Eligibility:

- Canadian citizen or permanent resident of Canada.
- Registered either full-time or part-time (at the time of application) in a bachelor's degree program in at least
 one of the two terms immediately before holding the award. NSERC, however, expects that most awards will
 be held by full-time students. A student is still eligible if they already hold a bachelor's degree, as long as they
 are currently studying towards a second bachelor's degree in the natural sciences or engineering.
- Must have obtained, over the previous years of study, a cumulative average of at least second class (a grade of B or B-).
- Must have completed, <u>at the time of application</u>, a minimum of <u>two</u> academic terms/semesters. Note that current first-year students are therefore not eligible.
- Graduating students may hold the award in the term immediately following the completion of their undergraduate program requirements, as long as they have not started a program of graduate studies.
- A student may hold only one USRA per fiscal year and may hold a maximum of three USRAs throughout their university career.
- Be engaged on a <u>full-time</u> basis in research and development activities in the natural sciences or engineering during the award tenure.
- Are supervised by a faculty member who meets <u>NSERC's Eligibility Criteria for Faculty</u>. Eligible faculty must hold a tenured, tenure-track or professor emeritus position or a contract position of no less than three continuous years. must be eligible to hold an NSERC (but do not currently have to have one) and must also have a primary appointment and/or funds administered by our department.
